The neighbourhood setting caters for core curriculum classes and provides the base for their management and welfare as students, individuals and a group. Small teams of teachers provide home group tutoring to small groups of students in each neighbourhood. This helps develop a culture of high expectations underpinned by a commitment to effort and hard work by all. The flexible learning spaces and network cabling support the extensive use of Information Communications Technologies. The design of the Communities allows effective supervision of all students and includes social spaces where personal relationships are formed.
